

Friday - 4 August 1950

In response to a request from Cong. Van Zandt that he be furnished with extracts from CIA reports on Korea in order to come to the Agency's defense, I informed him that such a procedure would be very embarrassing to the Director and not in accord with our relationships with other agencies of the Government. I informed him that while we greatly appreciated his motives, we could not agree to his request.

In reply to a call from Mrs. Carraway of the office of ^{Rep.} Sen. Lucas on 3 August requesting information as to whether Mr. [] 25X1A [] was an employee of this Agency. I informed Sen. Lucas that Mr. [] was an employee and could be identified by credentials so designating him and signed by the Director. Mr. [] had visited the office of the Good Neighbor Commission of Texas requesting information which they would be delighted to give him providing [] was a credited representative.
